Education

Manipal Institute of Technology

Bachelor of Technology - Computer Science; CGPA: 8.65

2022 – 2026

Manipal, Karnataka

Precidency Global School

Class XII; CGPA: 9.62

2020 – 2022

Patna, Bihar

Experience

Tech Intern – Business & Digital Technology Solutions (BDTS)

May 2025 - July 2025

Yes Bank Ltd.

Mumbai, Maharashtra

- Led a team of 3 interns in end-to-end testing of 3 enterprise platforms, identifying 50+ bugs and reducing workflow errors by 30%.
- Mentored interns, streamlined test cycles, and collaborated with cross-functional teams for deployment and documentation.

Data Analyst Intern

December 2024 – January 2025

Alethe Labs

Gurugram, Haryana

- Developed a **Corrosion Condition State Classification** model using **ResUnet with multihead attention**, segmenting pixels into four corrosion categories.
- Implemented unsupervised learning models to detect fraudulent bank transactions, enhancing anomaly detection.

Undergraduate NLP Research Intern

June 2024 – July 2024

MIT, Manipal

Karnataka

- Developed a model to analyze and visualize fractal nature of lyrical verses using **NLTK**, **Matplotlib**, and **Plotly**.
- Applied advanced NLP techniques and fine-tuned transformer models (**GPT-3**, **Hugging Face Transformers**) with embeddings (**Word2Vec**, **Doc2Vec**, **BERT**).

Projects

- SetuAI – AI-Powered Compliance Engine:** (PostgreSQL, Node.js, React, Google Gemini OCR) Built a full-stack SaaS platform to automate compliance verification with live government API checks, role-based dashboards, and risk scoring, achieving 70% faster vendor onboarding and improved compliance transparency.
- Art Generation with Neural Style Transfer Model:** (CNNs, VGG-19, ImageNet) Developed a Deep Learning model to generate aesthetically pleasing and contextually significant images in the style of various Impressionism artists, leveraging low-level and high-level feature extraction.
- Image Processing Application:** (Java, CSS, JavaFX) Created an application with multiple image filters, histogram-based analysis, and compression, with an attractive GUI built using OOP principles.
- Property Management System:** (Python, SQL, Rich) Built a comprehensive application for tenant/lease management, maintenance tracking, and secure storage of property-related documents.

Technical Skills

Languages: Python, Java, C, HTML, CSS, JavaScript, SQL

Technologies/Frameworks: Git, PyTorch, TensorFlow, WordPress, JavaFX, PowerBI

Relevant Coursework: Data Structures & Algorithms, OOP, Operating Systems, Database Management, Computer Architecture, Embedded Systems, Software Engineering

Leadership & Achievements

- SAP Hackfest'25 – Special Award:** Ranked in the Top 5 among 25 000 students, 4,000 teams across 20 state hubs; won special award for developing *SetuAI*, an AI-powered vendor compliance platform.
- IAESTE Manipal (International Association for the Exchange of Students for Technical Experience):** Served as an LC member, developing leadership, teamwork, and communication skills; organized Namaste Manipal'23, a week-long flagship event welcoming interns from around the world.
- Revels MIT Sponsorship Team (Cultural Fest of MIT):** Contacted potential sponsors, created sponsorship packages, and negotiated terms; secured sponsorship from Lifestyle, providing clothing, accessories, vouchers, and gift cards for the Fashion Event.
